Commencing our journey in 2014 with a trio of founding members, our network has since expanded to encompass approximately 11 members spanning across more than seven countries.

Acting as representatives for our esteemed members, we offer the wider cruise and logistics industry an unwaveringly professional and dependable partnership, augmenting value for all maritime vessels and their esteemed passengers.

FAROE ISLANDS

Check our website

In early 2021, the sub-sea tunnel connecting Streymoy and Eysturoy was completed. This tunnel, notable for featuring a roundabout, artistic lighting, and sculptures, marked a significant achievement. Additionally, there are plans to finalize another tunnel to Sandoy by the end of 2023. This well-established infrastructure greatly facilitates inter-island travel within the Faroe Islands.

Introducing the Hilton Garden Inn and Hotel Brandan, two new accommodations in Torshavn, along with the expansion of Hotel Føroyar. With these new additions and the enchanted Hotel Føroyar, we anticipate a substantial increase in tourist activity within the Faroe Islands. For instance, the number of guest stays increased from 169.102 in 2019 to 229.397 in 2023.

The expansion project at the port of Torshavn has been successfully concluded.

This expansion effort has resulted in the addition of nearly 900 meters of quayside space, boasting a depth of 15 meters.

Gára is Iceland's leading cruise operations partner, providing passenger vessel services at every port and destination across the country. With more than 35 years of experience, we have helped shape the development of Iceland's cruise industry and earned the trust of cruise lines operating throughout the North Atlantic.

Supported by our expertise in turnaround operations, crew handling, customs and immigration services, marine logistics, vessel supplies, and destination development, we deliver safe, efficient, and reliable solutions throughout Iceland. From itinerary planning and port evaluation to final departure, our team helps cruise lines maximise operational

efficiency, enhance the guest experience, and unlock the full potential of every Icelandic destination.

With one point of contact, nationwide coverage, and 24/7 operational support, Gára helps cruise lines navigate Iceland with confidence.

Global logistics solutions powered by Eimskip Denmark A/S.

Eimskip Denmark A/S, a proud member of the NAA family, delivers comprehensive global transport solutions.

We recognize the importance of local knowledge and reliability when selecting port agencies or logistics partners for every port and destination.

Over the years, we have built a unique logistics platform supported by our extensive worldwide network. This enables us to provide a wide range of logistics solutions, including fishing trawlers, cruise deliveries, navy and coast guard services, stevedoring, warehousing, custom brokerage, dangerous goods handling, and global freight forwarding.

Eimskip Denmark A/S connects the North Atlantic to the rest of the world by linking the Liner services with its worldwide forwarding network, providing integrated, reliable, and cost-competitive logistics solutions. We operate a vast fleet of liner vessels in the North Atlantic, vessels that transit on regular routes and visit ports on set schedules. The liner vessels are a mix of container, refrigerated bulk, and multipurpose container/bulk vessels.

We provide cargo transportation from pick up to the final destination. This is done by a combination of moving the cargo from port to port on a liner vessel along with inland transportation and cooperation with trusted logistics partners. Eimskip Denmark A/S offers door to door transport and logistic services.

Focusing on Iceland and the Faroe Islands, and connections to Canada and the United States of America. Furthermore, Eimskip Denmark A/S has weekly services to Finland and The Baltics.

Eimskip Denmark A/S offers transport by road, sea, and air for all types of cargo i.e. part-, full-load, and breakbulk handled by our own trucking company, warehouses, customs, and service department with dedicated and experienced staff.

Entry / Exit Procedures

All non-Schengen citizens will be subject to the Entry/Exit border control system, which includes the collection of biometric data such as facial photographs and fingerprints.

For turnarounds in Nuuk, Entry/Exit border control procedures will take place at the hall of Sikuki Nuuk Harbour.

Check our website

Both crew members and passengers will undergo border control in connection with passenger changes during turnarounds.

Passengers arriving from non-Schengen countries – for example, via charter flight – will complete entry control at the airport upon arrival. When boarding the cruise ship, they will subsequently be subject to exit control procedures, and vice versa.

Zones

The introduction of zone divisions has been long anticipated, and further details are expected to be announced in the autumn.

Purpose

The zone system is designed to regulate vessel movements, minimize environmental impact, and reduce the risks associated with sailing in remote and uninhabited areas.

Zone Types

Green Zone: Freely accessible for sailing.

Yellow Zone: Accessible with certain restrictions, likely requiring smaller vessels or specific permits.

Red Zone: Closed to passage and port calls.

Pole Position Logistics has formed a strategic partnership with Svalbard Cruise Forum, in collaboration with local stakeholders in Longyearbyen and AECO. Through dedicated and local collaboration, the forum will steer Svalbard cruise tourism in a future -oriented and sustainable direction.

The Svalbard Cruise Forum will coordinate future cruise traffic to Longyearbyen. The goal is to improve the experience for everyone involved, in the short and long term.

We are pleased to announce that our storage/ warehouse has been expanded. This strategically located warehouse will enhance our capability to meet the diverse needs of our clients effectively. Together with our own in-house freight forwarding team, we are your logistic partner for the Arctic.

Store Norske has been mining in Svalbard since 1916. The mine closed in the summer of 2025; Now it's time to "clean up the mine" and further develop the area around Kullkaia. This will take place in the coming years. In addition to developing the area around Kullkaia, Pole Position Logistics will be the operator of the Kullkaia pier. We encourage all our customers to contact us for more information or port/ berth bookings.

As a full agent (Destination agent and Maritime expert), we are also actively developing suitable shore-ex programs for our clients. We offer a wide range of local experiences for our clients, focusing on local and suitability. With years of experience as a local provider, we know exactly how to bring land and sea operations together.

In addition, we will open our new office in 2026, where we will be working with all our expertise to bring together all client needs and guide them in the Arctic.

Jetpak provides logistics solutions with unmatched speed. We tailor each shipment to your specific requirements and transport it from sender to recipient via the quickest route available. With over 40 years of experience in express delivery, we ensure high-quality, precise, and on-time delivery.

Check our website

Through our extensive network of partners, presence at major airports, and proprietary IT system, Jena, we minimize lead times for door-to-door deliveries. With access to approximately 4,000 daily flight departures and our own handling areas, we guarantee minimal handling times and enhanced control over the flow of goods. Your shipment is promptly picked up and delivered door-to-door within hours across the Nordics and Europe, including direct delivery to production lines if necessary. With operations in over 170 destinations, Jetpak ensures efficient and reliable service.

In 2023, Jetpak expanded through the acquisition of three companies, two in Sweden and one in Norway. This strategic expansion underscores our dedication to improving services and bolstering our presence in the Nordic region, offering customers an expanded range of solutions and capabilities.

Invisible bunkering in Iceland

We operate a oil barge in the Faxaflói area, offering seamless, ship-to-ship refueling in Reykjavík and surrounding harbours. Choose oil barge bunkering the next time your vessels call in Reykjavík – your passengers will never know we were there.

Skeljungur is an agent for Shell products in Iceland.

Out of Sight, Out of Mind – And a whole lot more convenient for your passengers

Unless you're a member of the crew, you'd never know we had been there. Quietly, we slip away – and look forward to seeing you again next time.

In addition, we offer a full range of engine products and lubricants for vessels.

Ecomar offers high quality products for marine industry in operational and sanitation solutions.

Our high-quality Ecomar products are designed to meet the demands of your engines and ensure reliable performance. If you have any specific requirements, please send us an email and we will be happy to respond to your enquiry.

We also supply lubricants from Shell, one of the leading brands in the market, known for quality and performance.

We look forward to hearing from you.

PROJECTS

Clean Up Iceland

Expedition cruise participants, including both guides and passengers, will be provided with the opportunity to disembark at designated coastal sites for the purpose of shoreline cleanup. This endeavor allows them to discover uncharted territories and enables them to contribute positively to the local communities they are encountering. This serves as a prime illustration of community involvement and demonstrates the positive potential of utilizing tourism for beneficial purposes.

Why cleanups?

Rising production, improper waste handling, and remarkable longevity have led to an escalating plastic pollution issue. Ocean currents frequently deposit a significant portion of this debris onto Icelandic coasts, originating from various global locations, frequently associated with the fishing sector.
