

**NAA**  
NORTH ATLANTIC AGENCY

In early 2021, the sub-sea tunnel connecting Streymoy and Eysturoy was completed. This tunnel, notable for featuring a roundabout, artistic lighting, and sculptures, marked a significant achievement. Additionally, there are plans to finalize another tunnel to Sandoy by the end of 2023. This well-established infrastructure greatly facilitates inter-island travel within the Faroe Islands.

Introducing the Hilton Garden Inn and Hotel Brandan, two new accommodations in Torshavn, along with the expansion of Hotel Føroyar. With these new additions and the enhanced Hotel Føroyar, we anticipate a substantial increase in tourist activity within the Faroe Islands. For instance, the number of guest stays increased from 169.102 in 2019 to 229.397 in 2023.

**The expansion project at the port of Torshavn has been successfully concluded.**

**This expansion effort has resulted in the addition of nearly 900 meters of quayside space, boasting a depth of 15 meters.**

**Gára, an Icelandic enterprise, exclusively specializes in port agency services for passenger vessels across all Icelandic ports and destinations. With substantial experience and support from our holding companies, TVG-Zimsen and Eimskip, Gára has played a pivotal role in advancing Iceland's cruise industry.**

Presently, Gára is the leading choice for cruise call services in Iceland. With our dedicated team located in Reykjavík and representatives stationed along the Icelandic coast, we ensure unparalleled cruise call support. Through a single point of contact at our Reykjavík headquarters, cruise lines enjoy instant access to Iceland's ports.

Our services include: Complete cruise call preparation for all Icelandic destinations, streamlined port clearance procedures, collaborative coordination with authorities, proficient crew handling, efficient turnaround operations, comprehensive logistics facilitated by TVG-Zimsen and Eimskip, secure warehouse storage solutions, and round-the-clock availability with our 24/7 service commitment.

**Pole Position has established a strategic partnership with Svalbard Cruise Forum, in collaboration with 12 prominent local stakeholders in Longyearbyen and AECO. Through dedicated and local collaboration, the forum aims to steer Svalbard cruise tourism towards a future-oriented and sustainable direction. The Svalbard Cruise Forum represents a fresh collaborative initiative aimed at managing and directing future cruise traffic to Longyearbyen. The objective is to improve the overall experience for all stakeholders, in the short and long-term.**

Additionally, we are pleased to announce the acquisition of a new warehouse, marking a significant expansion of Pole Position’s storage capacity. This strategically located warehouse will enhance our capability to meet the diverse needs of our clients effectively.

Furthermore, the Norwegian Government adopted several amendments to the environmental regulations in Svalbard. These proposed guidelines encompass restrictions on landing in protected areas, passenger limits within these areas, regulations relating to wildlife proximity, drone usage, and icebreaking activities. The new regulations will come into effect in 2025.

**Jetpak**

Jetpak provides logistics solutions with unmatched speed. We tailor each shipment to your specific requirements and transport it from sender to recipient via the quickest route available. With over 40 years of experience in express delivery, we ensure high-quality, precise, and on-time delivery.

Through our extensive network of partners, presence at major airports, and proprietary IT system, Jena, we minimize lead times for door-to-door deliveries. With access to approximately 4,000 daily flight departures and our own handling areas, we guarantee minimal handling times and enhanced control over the flow of goods. Your shipment is promptly picked up and delivered door-to-door within hours across the Nordics and Europe, including direct delivery to production lines if necessary. With operations in over 170 destinations, Jetpak ensures efficient and reliable service.

**In 2023, Jetpak expanded through the acquisition of three companies, two in Sweden and one in Norway. This strategic expansion underscores our dedication to improving services and bolstering our presence in the Nordic region, offering customers an expanded range of solutions and capabilities.**

## Clean Up Iceland

Expedition cruise participants, including both guides and passengers, will be provided with the opportunity to disembark at designated coastal sites for the purpose of shoreline cleanup. This endeavor allows them to discover uncharted territories and enables them to contribute positively to the local communities they are encountering. This serves as a prime illustration of community involvement and demonstrates the positive potential of utilizing tourism for beneficial purposes.

### Why cleanups?

Rising production, improper waste handling, and remarkable longevity have led to an escalating plastic pollution issue. Ocean currents frequently deposit a significant portion of this debris onto Icelandic coasts, originating from various global locations, frequently associated with the fishing sector.
